Growth of \$100 (Since Inception)

The performance figures represent past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Call toll-free at 800-645-6561 to obtain performance data current to the most recent month-end. Returns less than one year are cumulative. Performance prior to the inception date of the fund (if any) is based on returns of an older share class, which have been adjusted for expenses.

The securities of small and medium-sized companies, because of the issuers' lower market capitalization, may be more volatile than those of large-sized companies.

*The net expense ratio reflects the expense ratio of the fund after any applicable expense waivers or reimbursements. This waiver or reimbursement is voluntary and is currently in effect indefinitely.
