

Scout International

Investment Style:

Foreign Large Growth

Investment Objective:

Foreign Stock

Investment Strategy:

The investment seeks long-term growth of capital and income. The fund normally invests at least 80% of net assets in equity securities of established companies either located outside the United States or whose primary business is carried on outside the United States. It does not intend to invest more than 25% of net assets in any one country. The fund may also invest a portion of net assets (up to 20%) in preferred stocks, high-grade bonds, fixed-income securities convertible into common stocks, or other investments, including cash and money market securities.

Fund Family:

Scout

The performance figures represent past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Call toll-free at 800-996-2862 to obtain performance data current to the most recent month-end. Returns less than one year are cumulative. Performance prior to the inception date of the fund (if any) is based on returns of an older share class, which have been adjusted for expenses.

Foreign securities and markets pose different and possibly greater risks than those customarily associated with domestic securities, including currency fluctuations and political instability.

*The net expense ratio reflects the expense ratio of the fund after applicable expense waivers or reimbursements, if any.
